PARAGON CENTER PROGRAM CONTRACT COMPLIANCE MONITORING REVIEW

In accordance with your Board's April 14, 2009 motion, we are informing your Board of the results of a group home compliance review.

Paragon Center is located in Orange County and provides services to Los Angeles County Department of Children and Family Services' (DCFS) foster youth and Probation Department youth. According to Paragon Center's program statement, its stated goal is "to enable these children to increase their independent adaptive skills and decrease their maladaptive behaviors in order to gain the necessary skills for successful adult adjustment." Paragon Center is licensed to serve a capacity of six children, ages 11 through 17.

The Out-of-Home Care Management Division (OHCMD) conducted a review of Paragon Center in October 2010, at which time it had one six-bed site and two placed DCFS children. Both children were females. For the purpose of this review, the two placed children were interviewed and their case files were reviewed. The sampled children's overall average length of placement was one month and their average age was 15. Six staff files were reviewed for compliance with Title 22 regulations and contract requirements.

One child was on psychotropic medication. We reviewed her case file to assess timeliness of psychotropic medication authorizations and to confirm that medication logs documented correct dosages were being administered as prescribed.

SCOPE OF REVIEW

The purpose of this review was to assess Paragon Center's compliance with the contract and State regulations. The visit included a review of Paragon Center's program statement, administrative internal policies and procedures, two placed children's case files, and a random sampling of personnel files. A visit was made to the facility to assess the quality of care and supervision provided to the children, and we conducted interviews with the children to assess the care and services they were receiving.

A copy of this report has been sent to the Auditor-Controller (A-C) and Community Care Licensing (CCL).

SUMMARY

Paragon Center was providing good quality care to DCFS placed children, and the services were provided as outlined in the agency's program statement. The children interviewed expressed satisfaction with the services.

The direct care staff stated that they were pleased with the support they received from the administrative staff. In fact, the facility manager reported that the Group Home administrative staff was attentive to the needs of the children and open to listening to the direct care staff's suggestions for improvement.

At the time of the review, the Group Home needed to develop comprehensive Needs and Services Plans (NSP), submit all Serious Incident Reports (SIR) in a timely manner, and ensure staff members complete initial and on-going training and emergency intervention training per Title 22 regulations and the Group Home's program statement. Further, the Group Home needed to encourage and assist children in creating and updating a life book/photo album.

Paragon Center was receptive to implementing some systemic changes to improve its compliance with regulations and the Foster Care Agreement. Further, the Assistant Executive Director stated that she welcomed the findings in the review so that the agency's current operating systems could be improved.

NOTABLE FINDINGS

The following are the notable findings of our review:

- Of the two initial NSPs reviewed for the two children's case files, neither was comprehensive in that they did not include all the required elements in accordance with the NSP template. Additionally, not all of the NSPs included specific and measureable treatment goals as they related to education, behaviors, permanency, life skills and visitation. Also, the methods to achieve the goals and the persons responsible for the treatment goals were not always

included. Subsequent to this review, Group Home Monitor Jui Ling Ho provided the agency with an additional refresher NSP training on November 22, 2010.

- Three of the six reviewed staff did not complete their initial/annual staff training and/or Emergency Intervention training as required in Title 22 regulations and Paragon Center's Program Statement.

The detailed report of our findings is attached.

EXIT CONFERENCE

The following are highlights from the exit conference held on October 21, 2010:

In attendance:

Irene Yohn, Assistant Executive Director, Paragon Center; Denita Trowel, Administrator, Paragon Center; and Jui Ling Ho, DCFS OHCMD Monitor.

Highlights:

The Assistant Executive Director was in agreement with our findings and recommendations. She stated that Paragon Center would make all necessary corrections to the NSPs and follow up to ensure that all staff received the required trainings in a timely manner.

As agreed, Paragon Center provided a timely written Corrective Action Plan (CAP) addressing each recommendation noted in this compliance report. The approved CAP is attached.

As noted in the monitoring protocol, a follow up visit will be conducted to address the provider's approved CAP and assess for full implementation of recommendations.

If you have further questions, please call me or your staff may contact Armand Montiel, Board Relations Manager at (213) 351-5530.

The following report is based on a "point in time" monitoring visit and addresses findings noted during the October 2010 monitoring review.

CONTRACTUAL COMPLIANCE

Based on our review of two children's files and six staff files, and/or documentation from the provider, Paragon Center was in full compliance with five of nine sections of our Contract Compliance review: Facility and Environment; Educational and Emancipation Services; Recreation and Activities; Children's Health-Related Services (including Psychotropic Medications) and Personal Rights. The following report details the areas found to be out of compliance.

LICENSURE/CONTRACT REQUIREMENTS

Based on our review of two children's case files and/ or documentation from the provider, Paragon Center fully complied with eight of nine elements reviewed in the area of Licensure/Contract Requirements.

Based on our review, Paragon Center was in compliance with licensing capacity. The Group Home conducted disaster drills at least every six months and maintained runaway procedures in accordance with the contract. The Group Home was also using all available resources to attempt to stabilize the placement prior to requesting the removal of the child. However, while the agency was utilizing the I-Track system to report all SIRs, not all of the SIRs were submitted in a timely manner.

Recommendation:

Paragon Center management shall ensure that:

1. All SIRs are submitted in a timely manner according to Exhibit A-VIII (Special Incident Reporting Guide for Group Home).

PROGRAM SERVICES

Based on our review of two children's case files, Paragon Center fully complied with six of eight elements reviewed in the area of Program Services. One element was not applicable because the time frames for obtaining the DCFS CSW's authorization to implement the NSP had not expired at the time of review.

We noted that placed children met the Group Home's population criteria as outlined in the program statement, and they were assessed for needed services within thirty days of placement.

Based on our review, we found that the treatment team developed and implemented the NSPs with input from the children, and both initial NSPs were developed in a timely manner. However, neither of the two initial NSPs reviewed was comprehensive in that they did not include all the required elements in accordance with the NSP template. Additionally, not all NSPs included specific and measureable treatment goals as they related to education, behaviors, permanency, life skills and visitation. Also, the methods to achieve the goals and the persons responsible for the treatment goals were not always included. The provider stated that they had re-trained the Group Home social workers so that any NSPs/Quarterly Reports issues could be resolved.

Recommendations:

Paragon Center management shall ensure that:

2. NSPs are comprehensive and include all required elements.

CLOTHING AND ALLOWANCE

Based on our review of two children's case files and interviews with the both children, Paragon Center fully complied with seven of eight elements in the area of Clothing and Allowance.

Based on our review, both children received their initial clothing allowance. According to the Group Home administrator, the Agency gave placed children \$100 for every two months. All children received an average of \$50 per month for clothing. Children were provided with opportunities to select their own clothes, and clothing provided to the children was of good quality and sufficient quantity. The clothing allowance logs and inventories confirmed that the requirements were being met.

Both reviewed children reported that the Group Home provided them with the required minimum weekly allowance and both children reported that they spent their allowances as they chose.

The Group Home provided children with adequate personal care items. However, neither reviewed child was encouraged and assisted in creating and maintaining their photo albums/life books. The provider stated that the creating of photo albums and life books will be implemented during activity time.

Recommendations:

Paragon Center management shall ensure that:

3. All children are encouraged and assisted in creating and maintaining photo albums/life books.

PERSONNEL RECORDS

Based on our review of six staff personnel files, Paragon Center fully complied with nine of 12 elements in the area of Personnel Records.

All six reviewed staff met the educational/experience requirements, submitted timely criminal fingerprint cards, Child Abuse Central Index Clearance (CACI) and signed criminal background statements in a timely manner. They also signed copies of the Group Home policies and procedures, had a valid driver's license, and completed First-Aid as required per the Group Home's program statement. However, four staff members did not complete their initial and/or on-going training as required per Title 22 regulations and Paragon Center's program statement. Two of the four staff members did not complete their initial 24 hours training in a timely manner. Both missed nine and half hours of the initial training. One of the staff members who missed the initial training also missed five out of 30 required on-going training hours. The other two staff members missed five hours and seven and a half hours, respectively, of their on-going training. Also, one staff missed 10 hours refresher emergency intervention training. The provider stated that the agency will ensure that all required trainings are done in accordance with Title 22 regulations and the Group Home program statement.

Recommendations:

Paragon Center management shall ensure that:

4. All staff members receive the required training per Title 22 regulations and the Group Home's program statement.
